

SCHOOL OF BUSINESS

Mission:

The School of Business prepares students with the knowledge, skills, and experiences to achieve highly successful careers and meaningful lives, as leaders who can change the world.

Our graduate programs include an online Master of Business Administration (MBA) and an online Master of Arts in Organizational Leadership (MAOL).

We offer a uniquely women centered education designed to launch women into further career success and meaningful lives; its unique approach combines practice-based career readiness, social responsibility, academic excellence, and a supportive and inclusive community of students and faculty. The industry experienced faculty is devoted to student success and creating immediate impact so a student can learn in one day and apply it on the job the next day.
