

DNP: POST-MASTER'S WITH SECOND CERTIFICATE: ADULT-GERONTOLOGY PRIMARY CARE NURSE PRACTITIONER

Doctor of Nursing Practice – Second Certification

The DNP-Second Certification option provides an educational route for nurses who already hold a master's degree in nursing (MSN) as advanced practice registered nurses (APRNs) who seek specialization in an area other than that obtained in their master's and also earn their terminal doctorate degree. Students complete the post-master's DNP program of study concurrently while fulfilling required coursework in their second NP specialty area.

Degree Requirements

To ensure students meet current practice and licensure requirements, courses and clinical rotations might be substituted to ensure compliance and learning outcomes are met. Students must complete all requirements designated by the track coordinator.

Years to Complete the Program

Students are expected to complete the DNP–Second Certification NP Program within five years of initial enrollment and will be allowed to re-sequence only once in the DNP course of study.

Important Technical Standards

For successful admission and continuance in St. Catherine University's pre-licensure nursing programs, a specific set of essential cognitive, sensory, communication, psychomotor, and behavioral/ emotional/ spiritual health abilities are required to be performed with or without reasonable accommodations.
