

TRANSFER CREDITS

St. Kate's welcomes transfer students into the College for Women (bachelor's degrees) and the College for Adults (associate and bachelor's degrees for women and men). Students typically transfer credits from institutionally accredited colleges and universities. St. Kate's also awards credit for learning obtained outside the traditional college or university setting.

Students may submit additional course information in English (descriptions, outlines, or syllabi) if an equivalency review is desired.
