

ACCOUNTING - BS

Accounting professionals play a key role as decision-makers in all organizations. They are relied on for their critical thinking, communication, and technical skills. Accounting is a versatile major and allows the graduate to work in a variety of roles. Common career paths include public accounting, internal audit, financial analysis, management accounting, and income tax accounting. Accounting is also a basic preparation for fraud and forensic accountants, consultants, and work in not-for-profit organizations.

The accounting major will prepare you for these many career options. Students will study financial and managerial accounting, intermediate accounting, auditing, tax accounting, auditing, finance, and business law. As part of the business core, accounting students will also study leadership, management, business analysis, and global business. Students will develop a well-rounded business education.

Accounting is one of the best majors in terms of career options, high compensation, quick career advancement, and career placement after graduation. For students who can think critically, communicate effectively, and develop the ability to analyze and interpret financial information, a career in accounting may be a good fit.

Public accounting emphasizes auditing, consulting and tax functions, while management accounting emphasizes cost accounting, budgeting, financial statement preparation and analysis and internal auditing.

Government accountants can work at any level of government to analyze and oversee the performance and allocation of funds. Internal auditing emphasizes compliance with organizational policies, accounting controls, accounting systems and operating effectiveness and efficiency. Accountants are also in demand for nonprofit organizations that need specialized expertise in finance, accounting, and policies unique to them as well as financial statement preparation.

Opportunity for advancement is one of the most appealing aspects of professional accounting. Public accountants frequently advance to positions with more responsibility within one or two years. Those who excel may become supervisors, managers or partners; may open their own public accounting, tax or consulting firms; may transfer to executive positions in management accounting; or may become internal auditors in private firms. Management accountants may advance to positions such as accounting manager, chief cost accountant, budget director or manager of internal auditing. Some become controllers, treasurers, financial vice presidents, chief financial officers or corporation presidents. Many senior corporate executives have a background in accounting, internal auditing or finance.

At St. Kate's, students have the opportunity to learn, work and study with accounting faculty who have real-world experience that enriches their theoretical expertise. St. Kate's accounting major offers hands-on experience, internship options, and small classes of 14-20 students. Accounting graduates have secured jobs in their field upon graduation, at leading firms such as PwC, KPMG, Deloitte, 3M, Ecolab, General Mills, and CliftonLarsonAllen.

Each state is responsible for establishing Certified Public Accountant (CPA) licensure rules and eligibility requirements for taking the CPA exam. With a major in accounting from St. Kate's students will meet Minnesota State Board of Accountancy requirements and will be eligible to sit for the CPA exam. Upon passing the CPA exam students apply for certification. To become certified students must have earned 150

credit hours in undergraduate or graduate course work. In the state of Minnesota individuals have three years upon CPA exam completion to earn the additional 20 credits. To meet this requirement, students can complete an additional 20 credits in undergraduate or graduate courses at St. Kate's.

Common Aspects of All Business Majors

St. Kate's offers a values-based business education built upon a foundation of liberal arts and guided by the following mission: *Grounded in Catholic social teaching, the Department of Business Administration at St. Catherine University delivers a transformative business education, empowering students to develop performance-ready expertise, adaptability, and confidence to become ethical and effective leaders in their chosen field.*

In the classroom, students work to successfully master business fundamentals and gain an appreciation for the interrelated nature of business functions—tools necessary for navigating a global, competitive business environment. By conducting online research and preparing computer-based presentations, students learn to incorporate technology into solutions for business problems and become prepared for careers in worldwide, decentralized organizations. Examples of this type of essential, highly-relevant coursework are collected in each student's business portfolio, serving as a showcase of academic accomplishments required for graduation.

St. Kate's business majors benefit from abundant resources as they move through the program towards their career goals. Exceptional instructors, both full-time professors and practicing professionals with a broad range of experience, provide a balanced theoretical and applied business curriculum. Outstanding women role models and accomplished executives participate on-campus as guest speakers, mentors, and recruiters. Many of them are St. Kate's alumnae and employees of the 60+ companies attending St. Kate's annual on-campus job fair—the largest of any Minnesota private college or university.

St. Kate's business administration department, part of the School of Business, offers a bachelor of arts or a bachelor of science in one of the following fields:

ECON 2610	Principles of Microeconomics	4
ECON 2620	Principles of Macroeconomics	4
Total Credits		18

Business Portfolio

All majors are required to complete a business portfolio. The portfolio is the vehicle that enables students to integrate the life skills and knowledge they bring with them and the knowledge, skills and values learned within the courses and field experiences throughout the program. This portfolio allows students to validate their experiences at St. Catherine University.

The portfolio is cumulative in nature; most aspects are completed as part of course work. Students must present the portfolio to their advisor no later than the week of September 15-22 for December graduation or the week of February 15-22 for May graduation.

For specific portfolio (BUSI 4800 Business Portfolio) requirements, please refer to the Professional Portfolio Handbook.

Accounting majors satisfy the Writing Requirement for Majors by completing ACCT 4130W Auditing. They complete the Liberal Arts and Sciences Core Writing Requirement with three other writing-intensive courses (CORE 1000W The Reflective Woman, CORE 3990W Global Search for Justice, and any other writing-intensive course in the Business Administration Department or another department).

This program of study is available in a completely online format and applies to students who begin the major courses in the fall semester.
